WORK EXPERIENCE

FISCOO PARTICULARES SL – MURCIA, SPAIN

Business or Sector Information and communication | **Department** TAX AUTOMATION | **Email** josetomas.hl@fiscoo.es |

Website <https://www.fiscoo.es/>

LEAD FRONTEND ENGINEER – 21/03/2024 – CURRENT

I led the planning, development, and implementation of a multi-platform mobile application with React Native and Expo SDK, taking full responsibility for the project from defining the architecture to deploying it on the App Store and Google Play. To ensure the application worked properly, unit and integration tests were carried out with Jest and React Native Testing Library, guaranteeing the quality and stability of the application. Subsequently, I provided ongoing support and incorporated new features, ensuring the product's constant evolution.

At the same time, I was responsible for the maintenance and support of existing web platforms for employees and customers, developed in Vue and Nuxt 2, which was a challenge in terms of learning how these technologies work in a short period of time. Meanwhile, the development of new versions began using ReactJS + TypeScript with ViteJS.

CAPGEMINI – MURCIA, SPAIN

Business or Sector Information and communication | **Department** TIC |

Email rrhh.european.industrial.center.es@capgemini.com | **Website** <https://www.capgemini.com/es-es/>
